4 Pricing and Terms

4.1 ImageNow Price Proposal Summary

This licensing illustration assumes 5 ImageNow concurrent-use licenses and no WebNow concurrent-use licenses. All components are modular – Please refer to the additional pricing options that follow.

Note: ImageNow full-client, concurrent-use licenses will technically support an unlimited number of users. Concurrent-use licenses allow customers to install ImageNow on an unlimited number of PCs; however, as proposed here, only 5 users are allowed to be logged on to ImageNow at any one time. The ImageNow full client provides the entire range of user functionality. Specific permissions for each license are enabled by your system administrator.

WebNow licenses will technically support an unlimited number of users. WebNow licenses allow customers to use WebNow from an unlimited number of workstations; however, as proposed here, no users are allowed to be logged on to WebNow any given point in time. WebNow provides for user functionality to view, print or route (via ImageNow Workflow) and may be ideal for users who do not perform scanning or administrative processes.
